EDUCATION

University of Louisiana at Monroe

Monroe, LA

Bachelor of Science in Computer Science; GPA: 3.68

Aug. 2022 – May 2026

- **Achievements:** Dean's Scholar, NSA Vice-President (Campus), Elevator Pitch Contest - 3rd Place
- **Relevant Coursework:** Database Management, Data Structures & Algorithms, Artificial Intelligence, Statistics

EXPERIENCE

Data Engineering & Analytics Intern

Aug. 2025 – Dec. 2025

Dura-Shiloh Industries

Remote (US)

- Built **SQL ETL pipelines** processing 100+ datasets weekly across 14 plants, eliminating 8+ hours of manual work and enabling same-day executive reporting
- Developed **Power BI dashboards tracking \$50M+** in operational performance, adopted by C-suite for weekly decision-making and quarterly planning
- Translated business needs into 15+ measurable KPIs, supporting plant efficiency improvements and cost reduction
- Analyzed cross-functional manufacturing and financial data in **Microsoft Fabric** to identify key drivers of plant inefficiency, resulting in actionable recommendations for cost reduction

Data Analytics & Special Projects Intern

Jun. 2025 – Aug. 2025

Dura-Shiloh Industries

Auburn Hills, MI

- Built CEO-adopted executive dashboard centralizing time allocation data across 10+ directors, replacing scattered Excel trackers
- Recovered **\$500K** in missing inventory through **forensic data analysis**, identifying systemic labeling failures that prevented production delays
- Accelerated monthly reporting by 1 week through Python automation pipeline, freeing **20+** finance hours per cycle
- Created automated validation scripts ensuring accuracy across inventory, production, and financial reporting systems

Data Analyst Intern

Jun. 2024 – Aug. 2024

Nepal Red Cross Society

Ramechhap, Nepal

- **Digitized 500+ paper-based health records** into SQL database, enabling data-driven resource allocation
- Built Power BI dashboards reducing staff manual effort **by 40%** and enabling real-time tracking across 6 districts
- Performed trend analysis on digitized health records to identify regional resource gaps, leading to a 15% more efficient allocation of medical supplies

IT Support Analyst

Feb. 2023 – May 2025

University of Louisiana at Monroe

Monroe, LA

- Resolved 1,000+ technical support tickets and **built Power BI dashboard** analyzing ticket patterns to identify recurring issues, enabling self-service guides that reduced repeat tickets by **20%**

PROJECTS

Healthcare Readmissions Risk Platform | Python, Scikit-learn, Power BI, SQL | [GitHub](#)

Dec. 2025

- Built **ML classification model** analyzing 4,000+ hospitals using CMS readmission data and CDC vulnerability metrics, achieving **85% accuracy** in identifying high-risk facilities
- Deployed interactive Power BI dashboard enabling researchers to prioritize interventions for 600+ at-risk hospitals

Autonomous Data Analysis Pipeline | Python, Gemini API, DuckDB, Streamlit | [GitHub](#)

Nov. 2025

- Engineered end-to-end automated analysis system using **6 specialized LLM agents** to ingest raw data, detect quality issues, clean datasets, and auto-generate Streamlit dashboards without human intervention
- Reduced full analysis cycle from **4+ hours of manual work to 15 minutes** of autonomous processing, eliminating repetitive data cleaning and visualization tasks for analysts

TECHNICAL SKILLS

Analytics & Viz.: KPI Development, Dashboard Design, Data Visualization, Statistical Analysis, Trend Analysis

Business Intelligence: Power BI (DAX, Power Query, Data Modeling), SQL, Tableau, Excel (VBA, Pivot Tables)

Data Engineering: Python (pandas, NumPy), ETL Pipelines, Data Modeling, dbt, **Databricks**, Power Automate

Cloud & Tools: Azure, GCP, BigQuery, Microsoft Fabric, Git/GitHub, DuckDB
